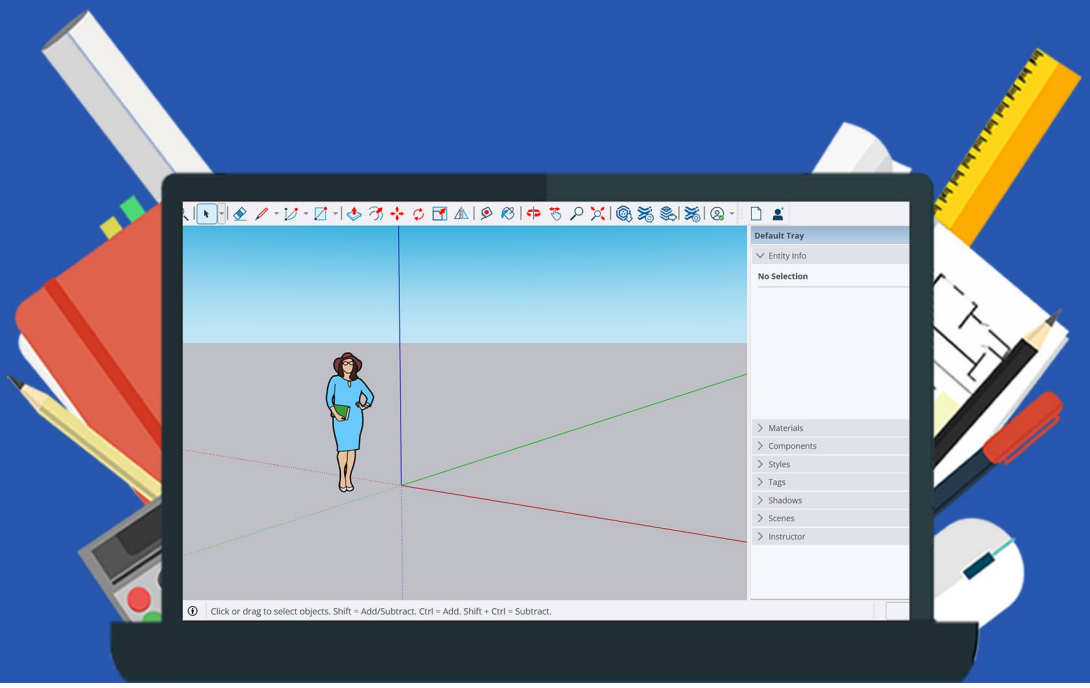
Installation Manual

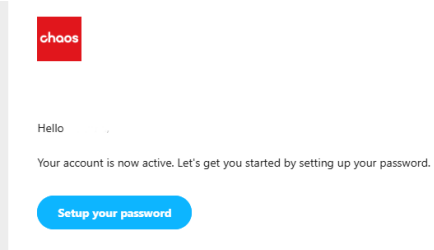


Chaos V-Ray Education Collection

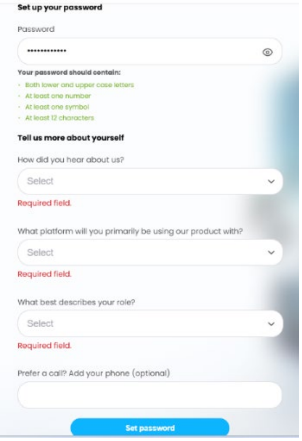
For Windows

Attention: Your license will automatically be linked to the email address you provided with your order.

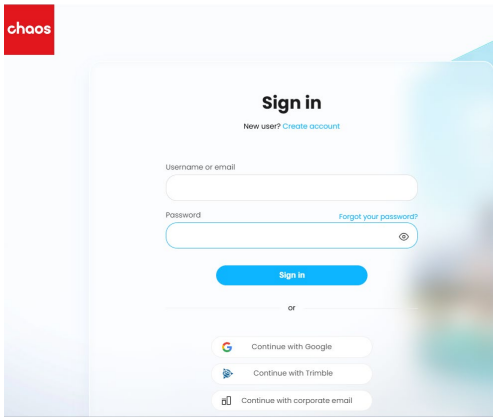
Stap 1: Order V-Ray on SURFspot. You will now receive two emails from Chaos. First, open the email which says your account is created. Click on “Setup your password”, you will now be redirected to the page where you can create a Chaos account. If you already have a Chaos account, skip to step 3.



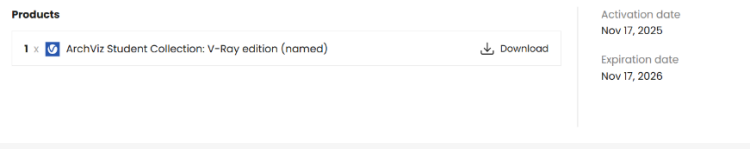
Step 2: Create a password and click on “Set password”.



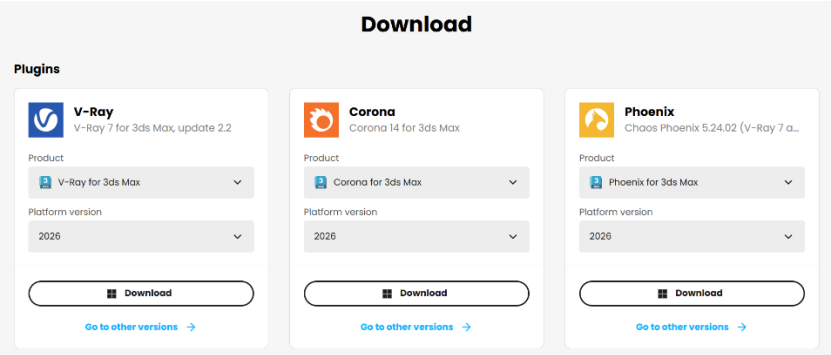
Step 3: Enter your login credentials and click on “Sign in”.



Step 4: You will now see an overview of your active products. Go to ArchViz Student Collection: V-Ray edition) and click on “Download”.

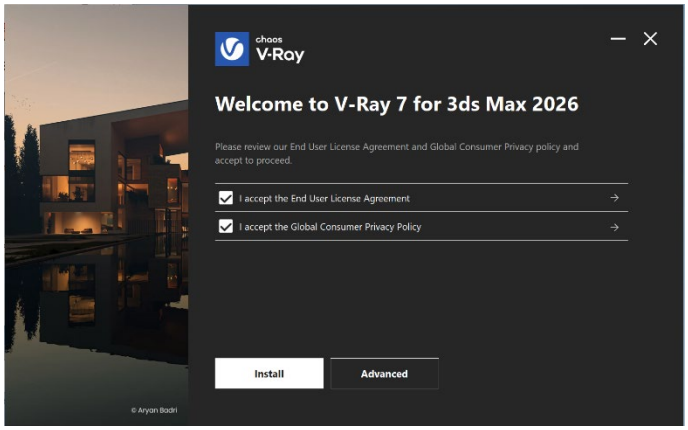


Step 5: You will now see an overview of all the products included in the ArchViz Student Collection: V-Ray edition. Choose the plugin you’d like to download (in this case that is V-Ray). Choose the product and the version you’d like to install and click on “Download”.

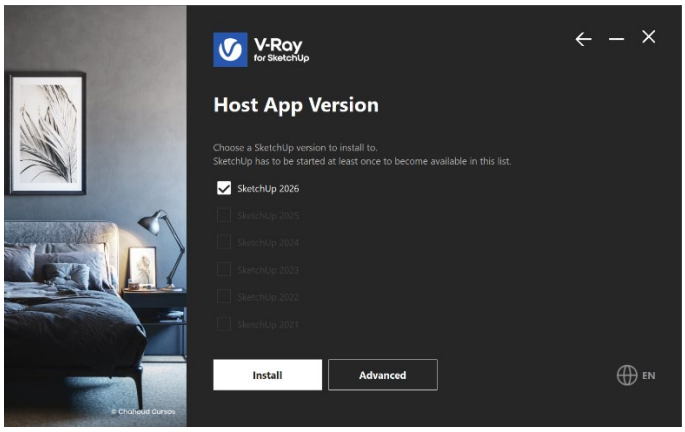


Step 6: The installation file will now download. Click on the installation file.

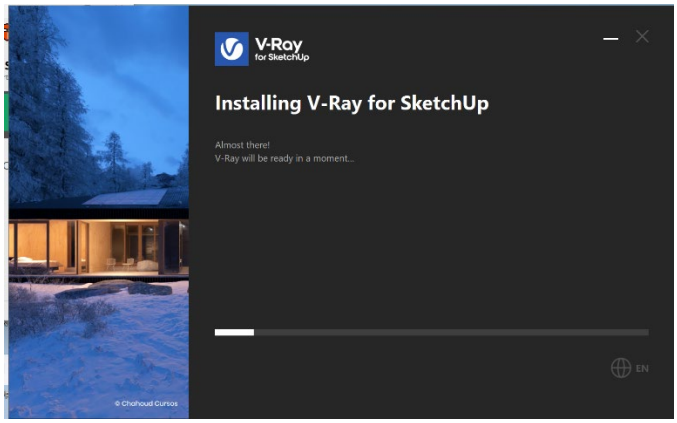
Step 7: Check the boxes “I accept the End User License Agreement” and “I accept the Global Consumer Privacy Policy” and click on “Install”.



Step 8: Choose the host app you'd like to use and click on "Install".



Step 9: V-Ray will now install.



Step 10: You will now receive a notification that V-Ray is successfully installed. Choose which data you'd like to send to V-Ray. If you wish to keep your data anonymous, choose "Anonymized Telemetry". If you'd like to use your personal data, choose "Personalized Telemety". Then, click on "Done". You can now use V-Ray!
