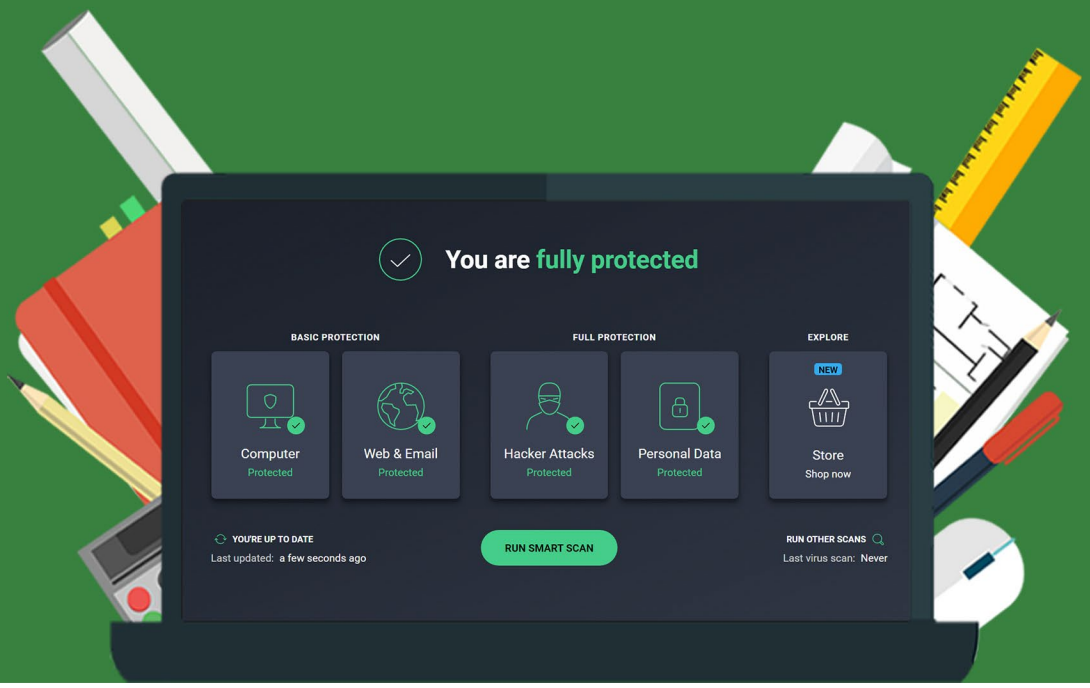
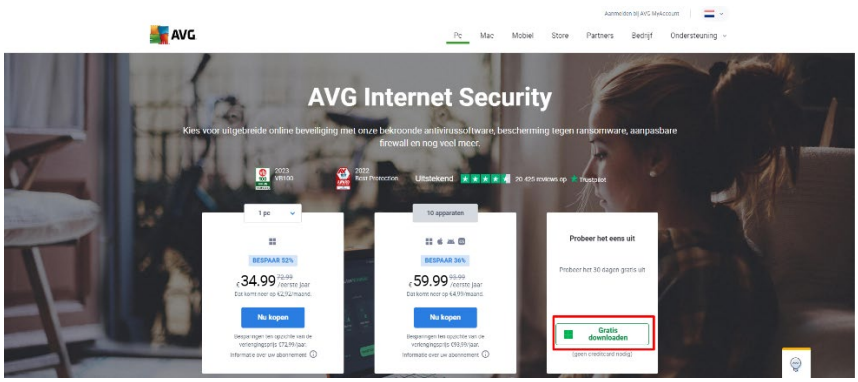
# Installation Manual



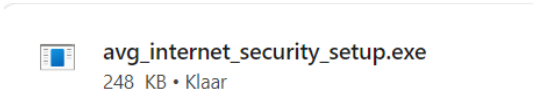
# AVG Internet Security

For Windows

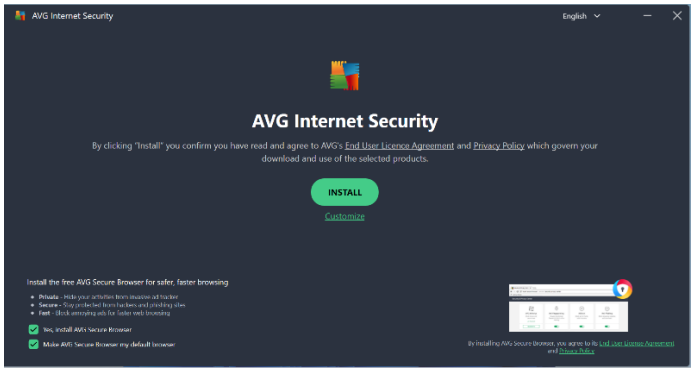
**Step 1:** Order AVG Internet Security on SURFspot. You can find your order by going to ‘My SURFspot’ and clicking on ‘Orders’. Click on ‘Download’ next to your order, you will now be redirected tot he AVG Internet Security homepage. Click on ‘Free download’.



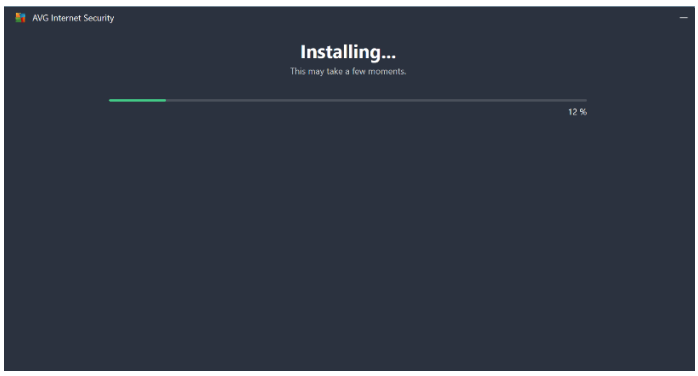
**Step 2:** Click on the installation file, the installation will now open.



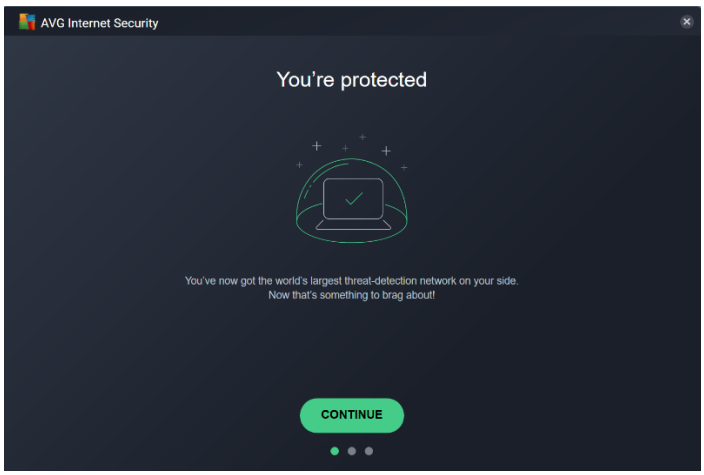
**Step 3:** Click on ‘Install’ to start the installation.



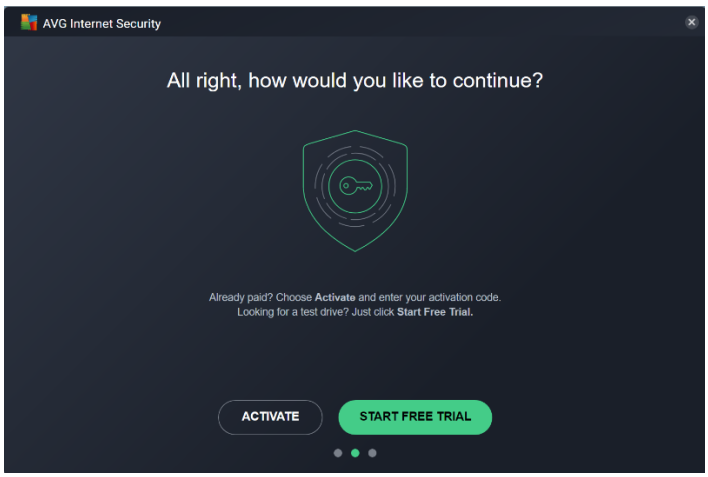
**Step 4:** AVG Internet Security will now install.



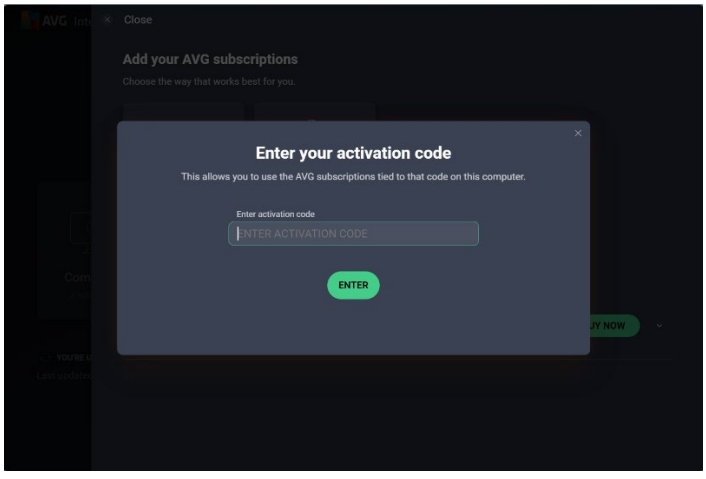
**Step 5:** The application will open automatically. Click on ‘Continue’.



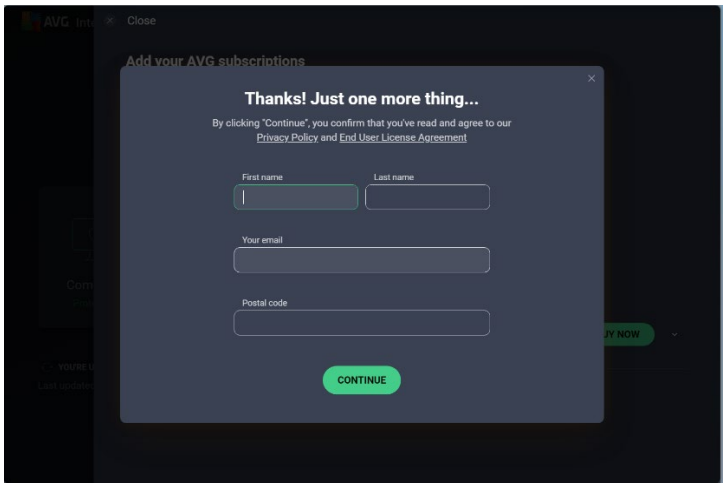
**Step 6:** You will now be given the option to activate your license. Click on ‘Activate’.



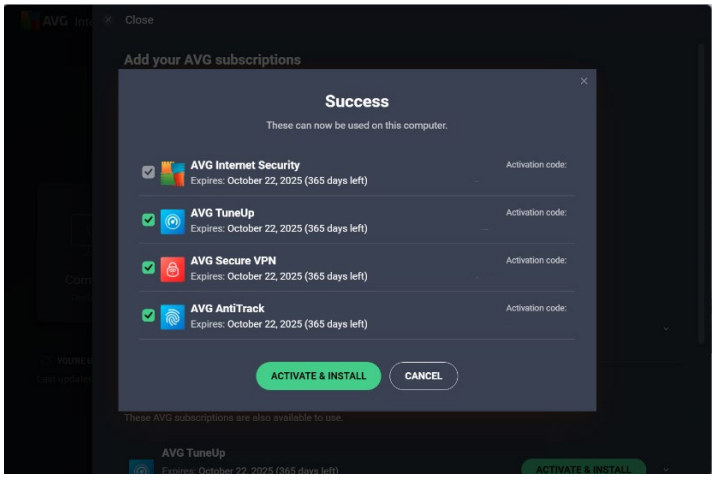
**Step 7:** Enter your license code. You can find it in your SURFspot account in ‘Orders’ by clicking on ‘show serialcode’.



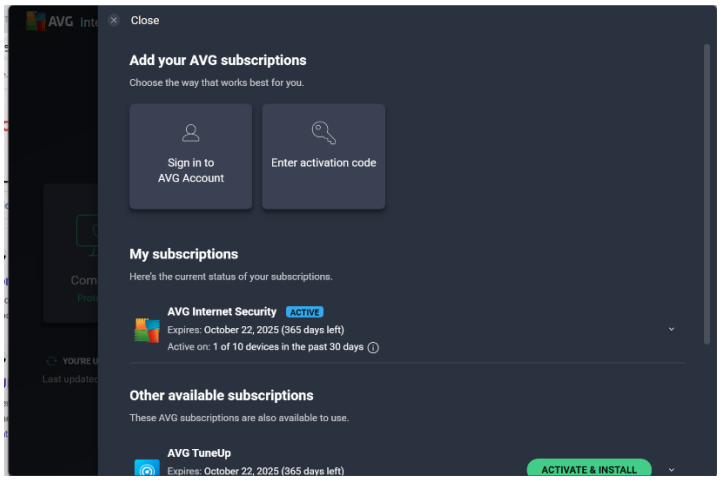
**Step 8:** Fill in the required fields and click on ‘Continue’.



**Step 9:** Choose which applications you’d like to install and click on ‘Activate & Install’.



**Step 10:** You will now see an overview of your license. You may choose to link your license to your AVG account by clicking on ‘Sign in to AVG Account’. Click on ‘Close’ to close this window.



**Step 11:** Your license is now successfully activated, you can get started!
