Installation Manual

IBM SPSS

SPSS Statistics Interim Fix

For Windows

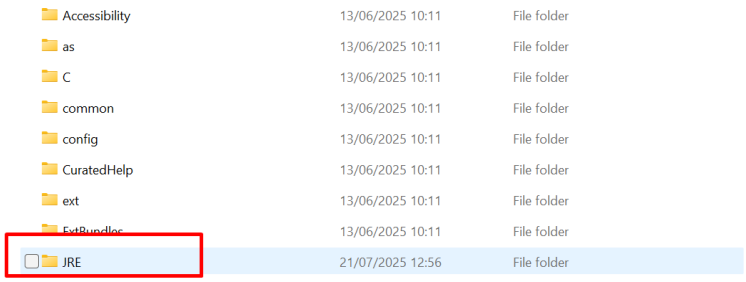

Attention: There are two versions of the Interim Fix available. If you purchased SPSS after April 17th, you only have to install the second fix. If you purchased SPSS before that, we recommend installing both fixes.

Interim Fix 1

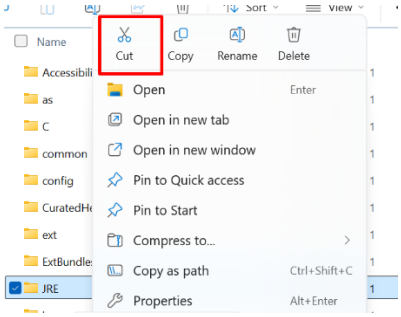

In order to apply the Interim Fix you must be logged in as Administrator.

Step 1: Go to the folder where you installed SPSS, this is usually C:\Program Files\IBM\SPSS Statistics\. Then, right mouse click on the JRE folder.

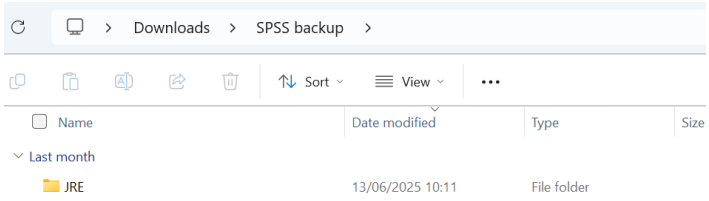

Attention: Are you using SPSS 27? In that case the installation folder is C:\Program Files\IBM\SPSS\Statistics\27.

Step 2: Click on “Cut”, or use the Ctrl + X shortcut.

Step 3: In order to work safely, we’ll first make a back-up of the current Java-folder in SPSS. Move the “JRE” folder from the SPSS installation folder **to a safe place outside of the SPSS folder, for example a folder on your desktop**. In this case we created a new folder and called it “SPSS backup”. Right mouse click on “Paste” or use the Ctrl + V shortcut.

Step 4: Start the download for the Interim Fix for your version of SPSS. In this case the fix for SPSS 31 will be downloaded.

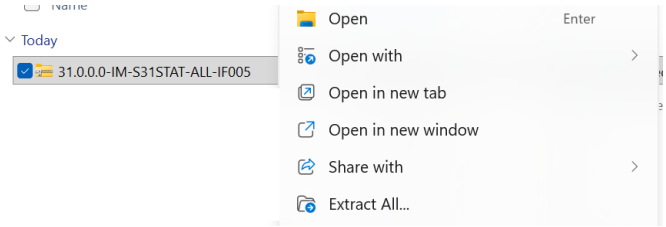

You can find the link to the Interim Fix for the different versions here:

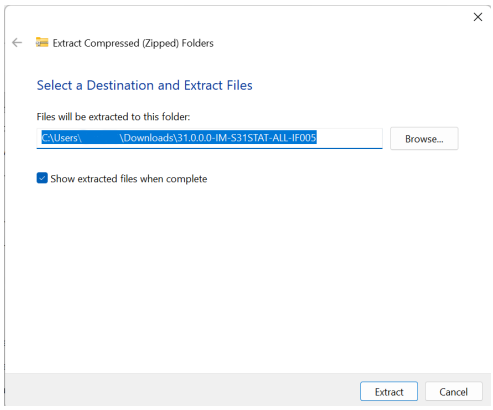

- SPSS 27: https://surfdrive.surf.nl/index.php/s/dJM96TRBeRezz28
- SPSS 28: https://surfdrive.surf.nl/s/3adyBRCH4ZjYQCD
- SPSS 29: https://surfdrive.surf.nl/s/etFCsXJ85549QLw
- SPSS 30: https://surfdrive.surf.nl/s/8Xf7rA6imo3NFx7
- SPSS 31: https://surfdrive.surf.nl/s/wFWeKY2Ae249Ckm

Step 5: Click on the downloaded file. Right mouse click on the .zip file and choose “Extract All…”.

Attention: You might find the .zip file is already extracted. In that case, you can skip steps 5 and 6 and continue on to step 7.

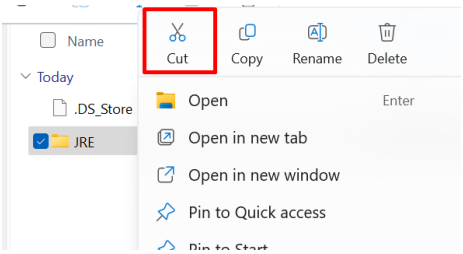

Step 6: Choose where you’d like to extract the .zip file to and click on “Extract”.

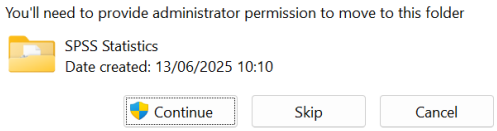

Step 7: Open the “Win64” folder.

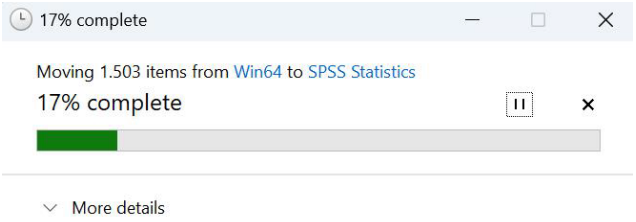

Step 9: With your right mouse button, click on the “JRE” folder and choose “Cut” as described in step 2.

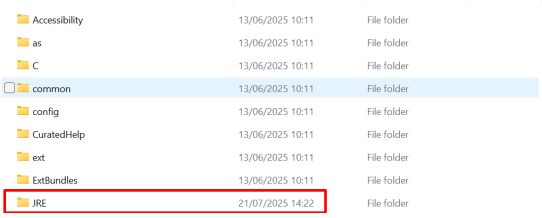

Step 10: Go back to the SPSS installation folder and paste the “JRE” folder as described in step 3. You will now be asked for permission to make changes to the installation folder. Click on “Continue”.

Step 11: The files will now be transferred, this may take a while.

Step 12: The new “JRE” folder will now appear in the installation folder. The date behind the folder will show it was modified recently. You do not have to keep the old “JRE” folder you removed in step 3.

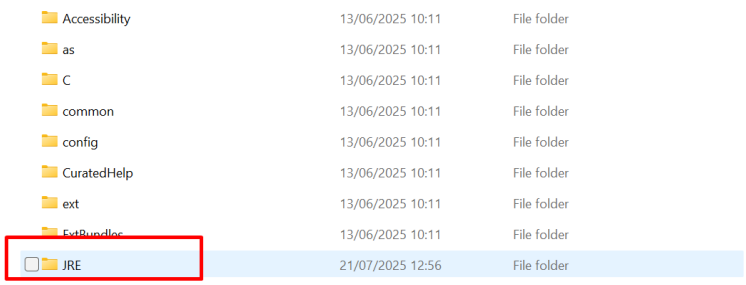

Step 13: You can now get back to using SPSS!

Interim Fix 2

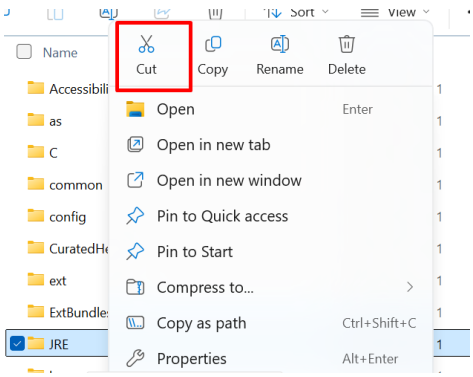

In order to apply the Interim Fix you must be logged in as Administrator.

Step 1: Go to the folder where you installed SPSS, this is usually C:\Program Files\IBM\SPSS Statistics\. Then, right mouse click on the JRE folder.

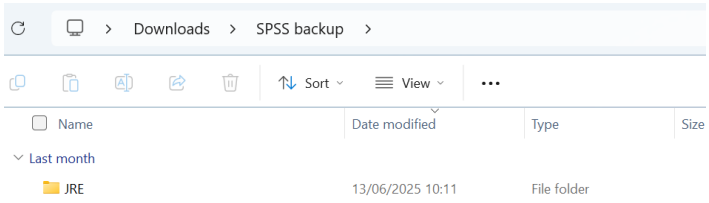

Attention: Are you using SPSS 27? In that case the installation folder is C:\Program Files\IBM\SPSS\Statistics\27.

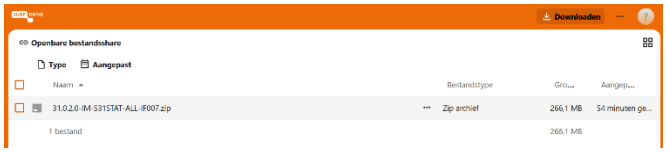

Step 2: Click on “Cut”, or use the Ctrl + X shortcut.

Step 3: In order to work safely, we’ll first make a back-up of the current Java-folder in SPSS. Move the “JRE” folder from the SPSS installation folder **to a safe place outside of the SPSS folder, for example a folder on your desktop**. In this case we created a new folder and called it “SPSS backup”. Right mouse click on “Paste” or use the Ctrl + V shortcut.

Step 4: Start the download for the Interim Fix for your version of SPSS. In this case the fix for SPSS 31 will be downloaded.

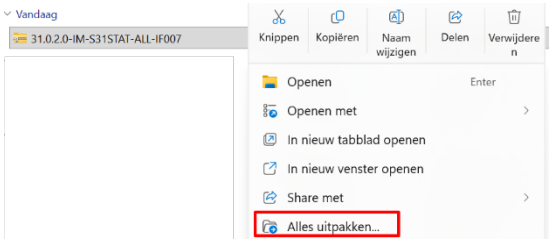

You can find the link to the Interim Fix for the different versions here:

- SPSS 27: https://surfdrive.surf.nl/s/q87LZRa74QpG2Xm

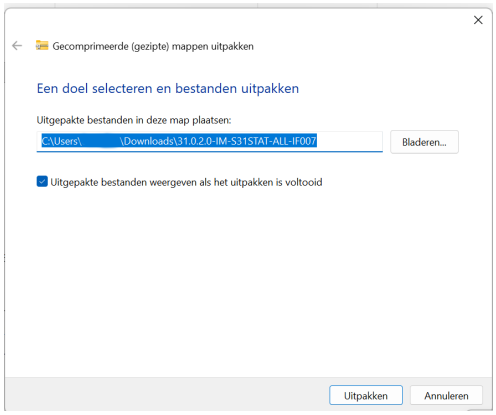

- SPSS 28: https://surfdrive.surf.nl/s/zagyrsAgTjK9RaT
- SPSS 29: https://surfdrive.surf.nl/s/3oRC5rWSSAMNJFX
- SPSS 30: https://surfdrive.surf.nl/s/wSNSHxEATs59zTp
- SPSS 31: https://surfdrive.surf.nl/s/TjPmCMyjKJedf2W

Step 5: Click on the downloaded file. Right mouse click on the .zip file and choose “Extract All…”.

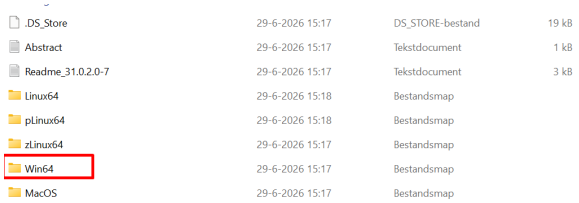

Attention: You might find the .zip file is already extracted. In that case, you can skip steps 5 and 6 and continue on to step 7.

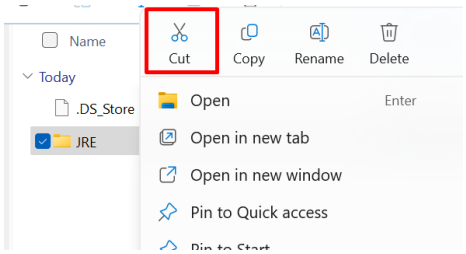

Step 6: Choose where you’d like to extract the .zip file to and click on “Extract”.

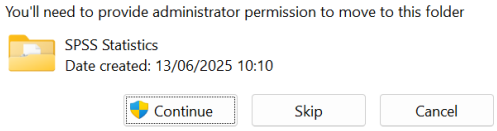

Step 7: Open the “Win64” folder.

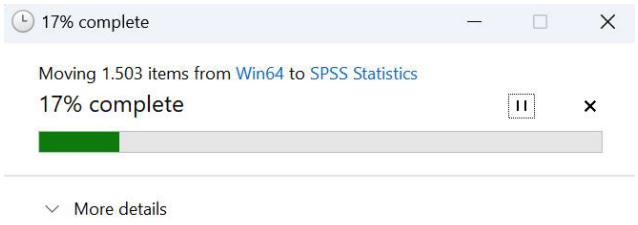

Step 8: With your right mouse button, click on the “JRE” folder and choose “Cut” as described in step 2.

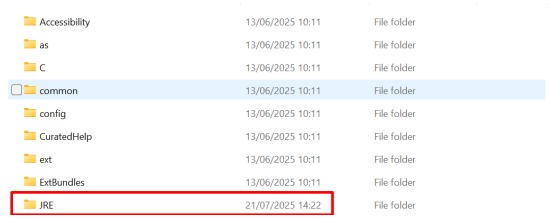

Step 10: Go back to the SPSS installation folder and paste the “JRE” folder as described in step 3. You will now be asked for permission to make changes to the installation folder. Click on “Continue”.

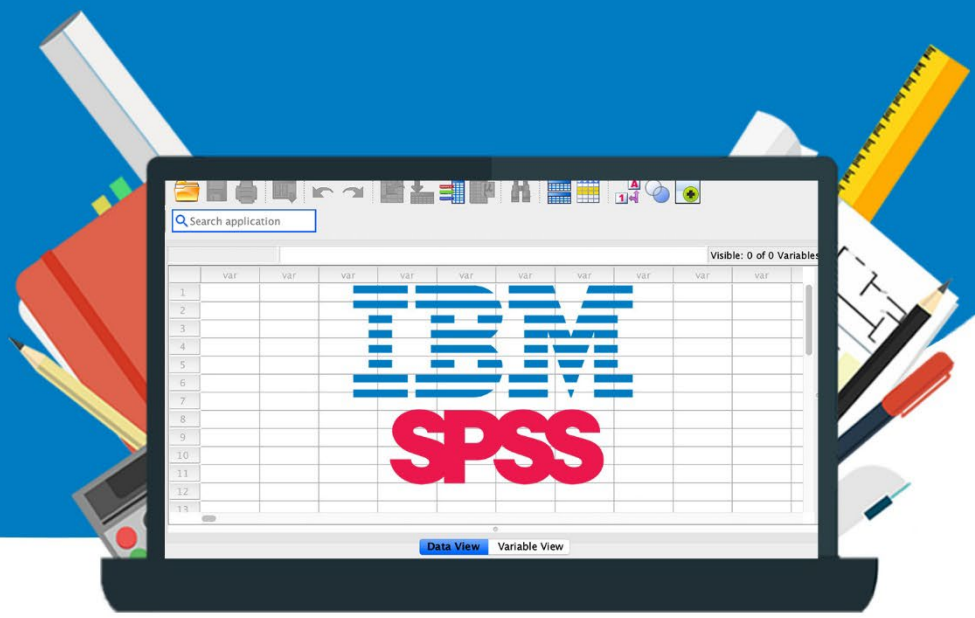

Step 11: The files will now be transferred, this may take a while.

Step 12: The new “JRE” folder will now appear in the installation folder. The date behind the folder will show it was modified recently. You do not have to keep the old “JRE” folder you removed in step 3.

Step 13: You can now get back to using SPSS!
