

# Installation Manual

**Adobe Student and  
Teacher Bundle**

For Windows

**Attention!** Before you begin, the following notes are important:

- You will not receive a license code with your order.
- Your license will automatically be linked to the e-mail address you provided with your order. Please provide a **personal e-mail address** with your order. When you use the e-mail address of your institution, it will create complications.
- The license is active as soon as you place your order.
- The end date is the same as the date of the order plus one year.
- In your Adobe account you have the option to leave the organization, with the consequence that the license will be removed and you will no longer be able to use Adobe Creative Cloud. We strongly advise you not to do this.
- You can renew your license a week before it expires by purchasing the product on our website. If you do not renew your license, you have 30 days to download or move your files. After 30 days you will no longer have access to your SURFspot Operational Console profile and the Creative Cloud files that are stored on that account.
- 6 months after your license has expired your account including all the files stored will be deleted permanently.

**Step 1:** Order the Adobe Student & Teacher Bundle on SURFspot. Within 15 minutes you'll receive an email from us which will confirm your order. You will also receive several emails from Adobe in which you now have access to Adobe Captivate, Adobe Premiere Elements and Adobe Photoshop Elements.

**Step 2:** Download the .zip file with all installation files. You can find the download link in your SURFspot account under "My Orders". Click on "Download" next to your order.

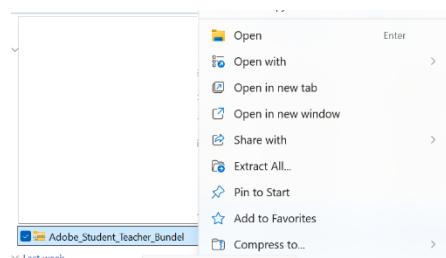

**Attention:** The .zip file is large, so it may take quite some time before the download is finished. Both the .zip files and the apps themselves will take up a lot of space on your device, make sure you have at least 30 GB of storage left on your hard drive.

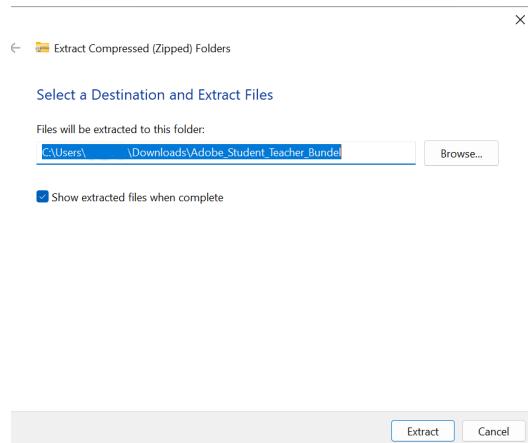

[Adobe\\_Student\\_Teacher\\_Bundel.zip](#)

**Step 3:** Extract the .zip file. You can do this by clicking with your right mouse button on the file and choosing "Extract all...".

Are you using Windows 10? Unpack the .zip file with the help of a separate program, such as WinZip.

**Step 4:** Choose the location you'd like to extract the .zip file to. If you'd like to change this, choose "Browse...". Click on "Extract" to extract the file.

**Step 5:** You will now see two new .zip files. Like in step 3 and 4, extract the .zip file for the operating system you're using, which in this case is Windows.

Adobe_Student_Teacher_Bundel_Windows	30/09/2025 15:07	Compressed (zipped)...	12.601.665 KB
Adobe_Student_Teacher_Bundel_Mac	30/09/2025 15:05	Compressed (zipped)...	13.376.676 KB

**Step 6:** Choose the application you'd like to install. In this case we'll choose Adobe Photoshop Elements. Extract the .zip file like in step 3 en 4.

Captivate_en_US_WIN_64	30/09/2025 15:10	Compressed (zipped)...	5.098.301 KB
Premiere Elements_en_US_WIN_64	30/09/2025 15:09	Compressed (zipped)...	3.109.516 KB
Photoshop Elements_en_US_WIN_64	30/09/2025 15:09	Compressed (zipped)...	4.433.788 KB
_MACOSX	30/09/2025 15:09	File folder	

**Step 7:** Open the "Build" folder.

...			
PackageInfo	30/09/2025 15:12	Text Document	1 KB
Photoshop Elements.ccp	30/09/2025 15:12	CCP File	6 KB
Build	30/09/2025 15:12	File folder	
Earlier this year			
Exceptions	12/06/2025 07:10	File folder	

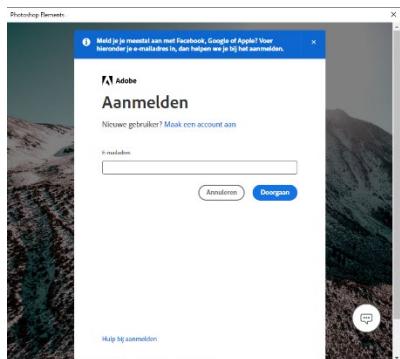

**Step 8:** Choose the first file, this is the installation file.

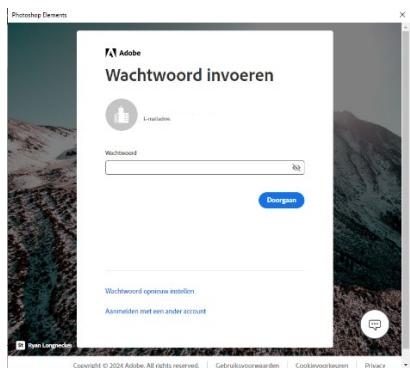

Photoshop Elements	30/09/2025 15:12	Windows Installer Pa...	92.225 KB
setup	30/09/2025 15:12	Application	1.589 KB
ASU_6.7.0	30/09/2025 15:12	File folder	
HD	30/09/2025 15:12	File folder	

**Step 9:** The installation will now start. Choose the language you'd like to use and click on "Continue".**Step 10:** Photoshop Elements will now install.

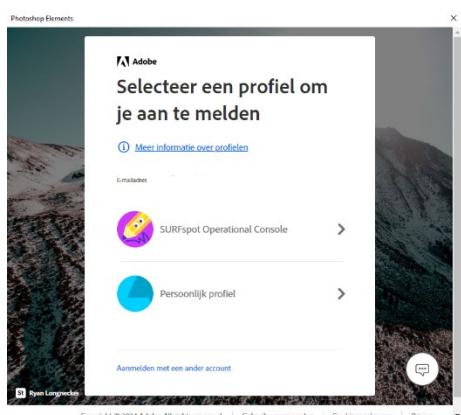

**Step 11:** Photoshop Elements will now open. You will then be asked to log in to Adobe. Enter your email address and click on “Continue”.

**Step 12:** Enter your password and click on “Continue”.

**Step 13:** Choose the SURFspot Operational Console profile, this is the profile which contains your license.

**Step 14:** You can now use the application! You may repeat the steps for the other applications.
