Stata 19

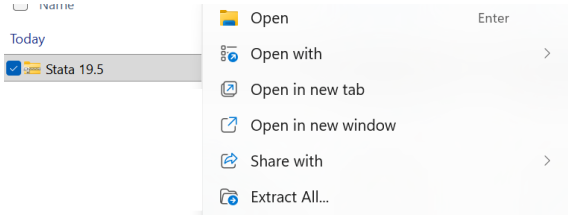

For Windows

Step 1: Order Stata on SURFspot. Within 15 minutes you'll receive a number of emails which will confirm your order and send you your download information. You can always find this information in your account under "Orders".

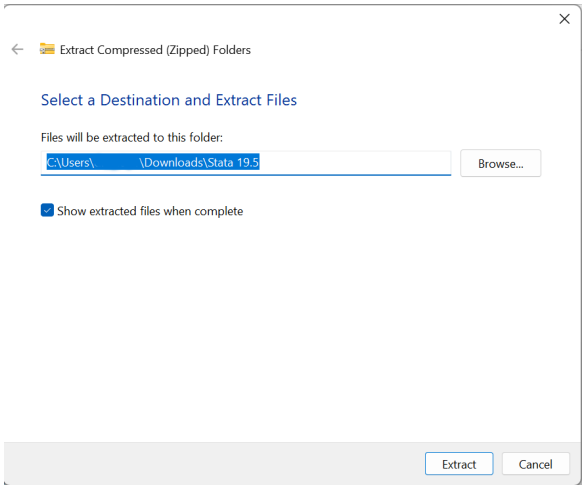

Step 2: Click on the download link in your account and wait until the installation file has finished downloading. Double click on the file once the download has finished.

Step 3: With your right mouse button, click on "Extract All…".

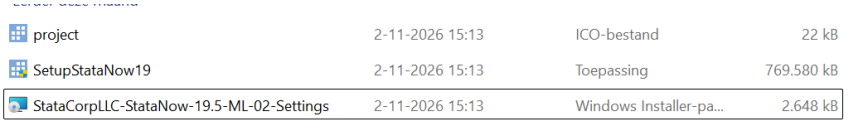

Step 4: Choose the location where you'd like to extract the file to and click on "Extract". The .zip file will now be extracted.

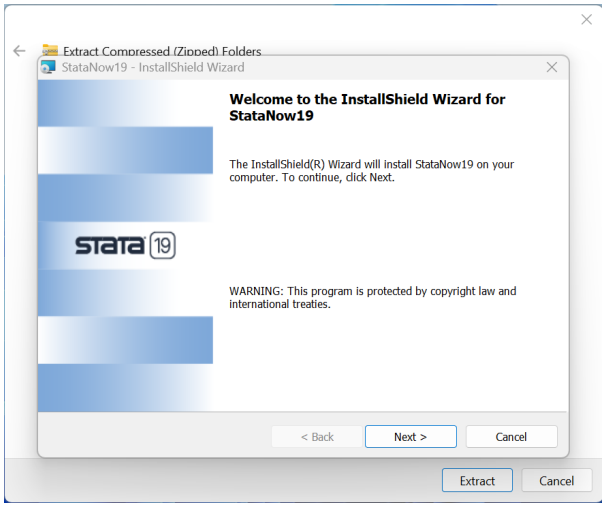

Step 5: Click on the Stata 19.5 folder.

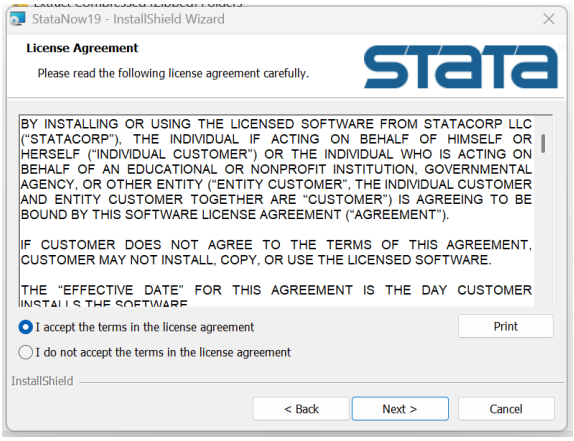

Step 6: Click on the bottom file, the installation will now start.

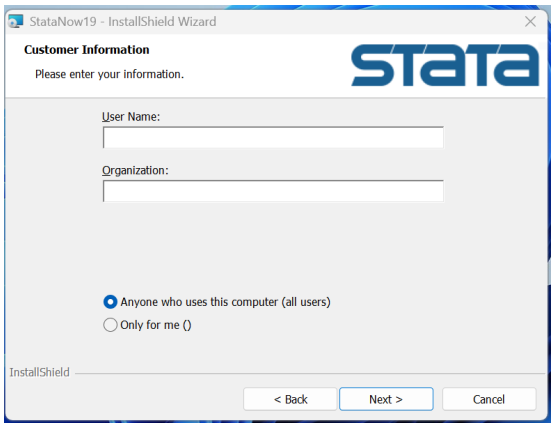

Step 7: The Installation file will now open. Click on “Next”.

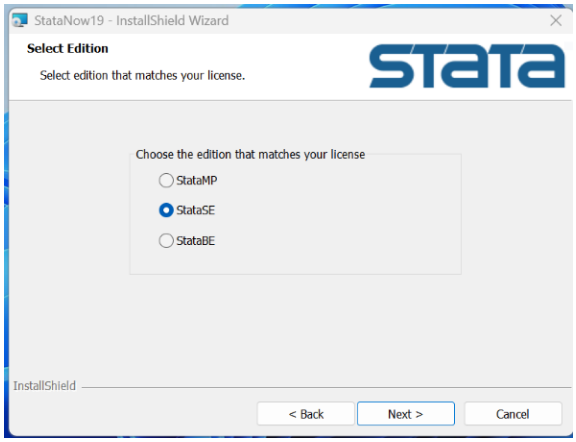

Step 8: Accept the license agreement by selecting “I accept the terms in the license agreement”. Then, click on “Next”.

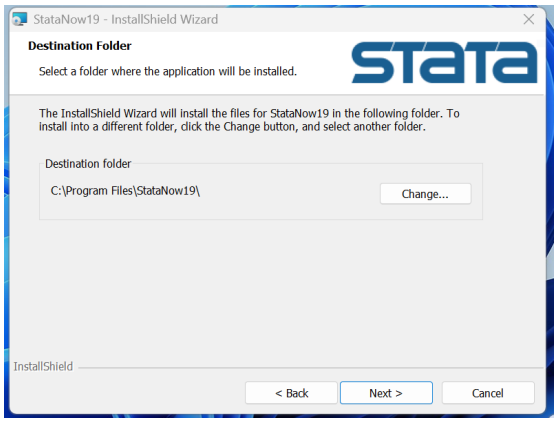

Step 9: The user name should already be filled in. Click on “Next”.

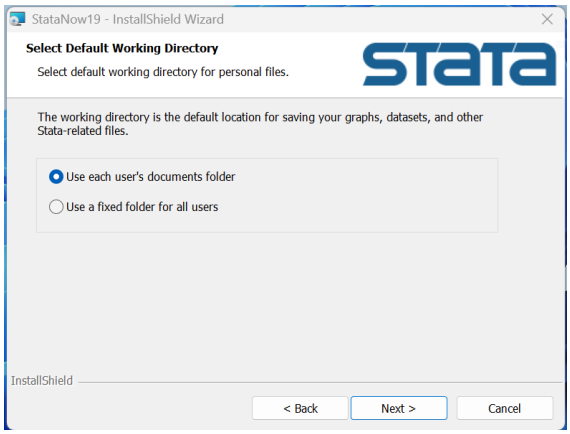

Step 10: Select “StataSE” and click on “Next”.

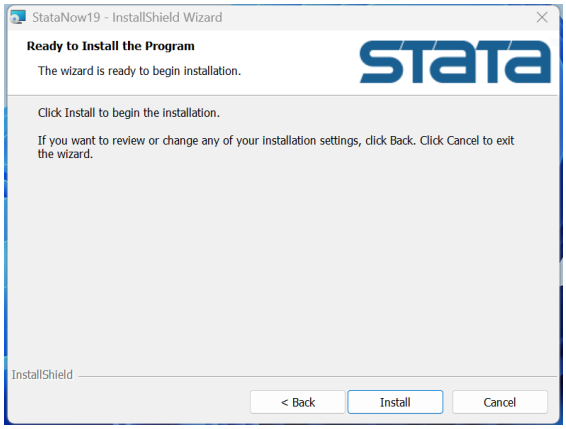

Step 11: Choose the folder where you’d like to install Stata. If you’d like to change the installation folder, click on “Change…”. Once the right folder has been selected, click on “Next”.

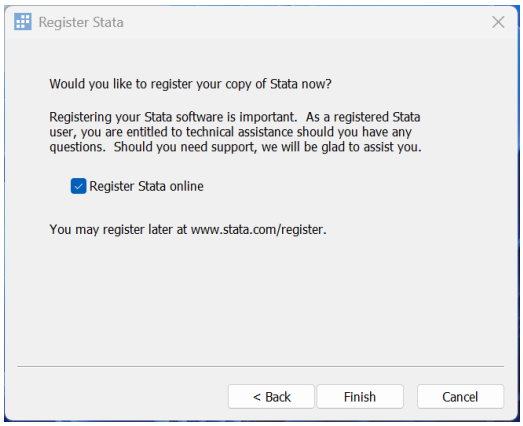

Step 12: Choose “Use each other’s documents folder” and click on “Next”.

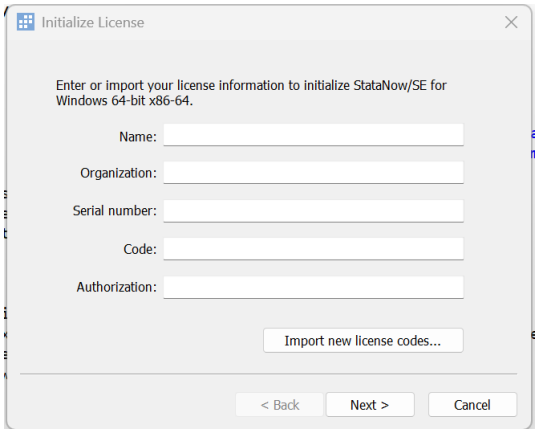

Step 13: Click on “Install” to start the installation.

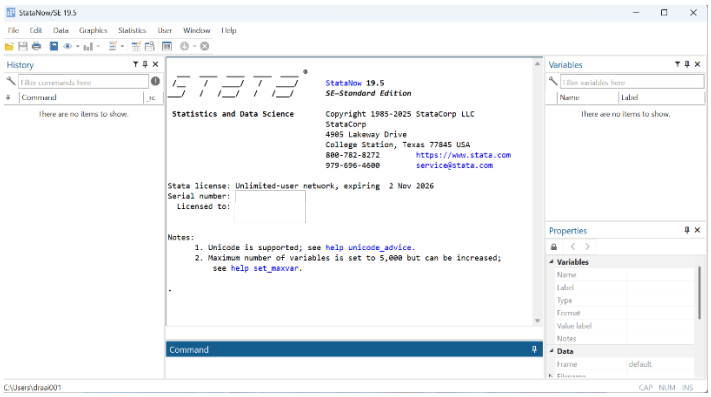

Step 14: You will now be notifiied that the installation is finished. Click on “Finish”. If you’d like, you can register your license online. In that case, leave the “Register Stata online” box checked. If you do not want to register your license online, uncheck the box.

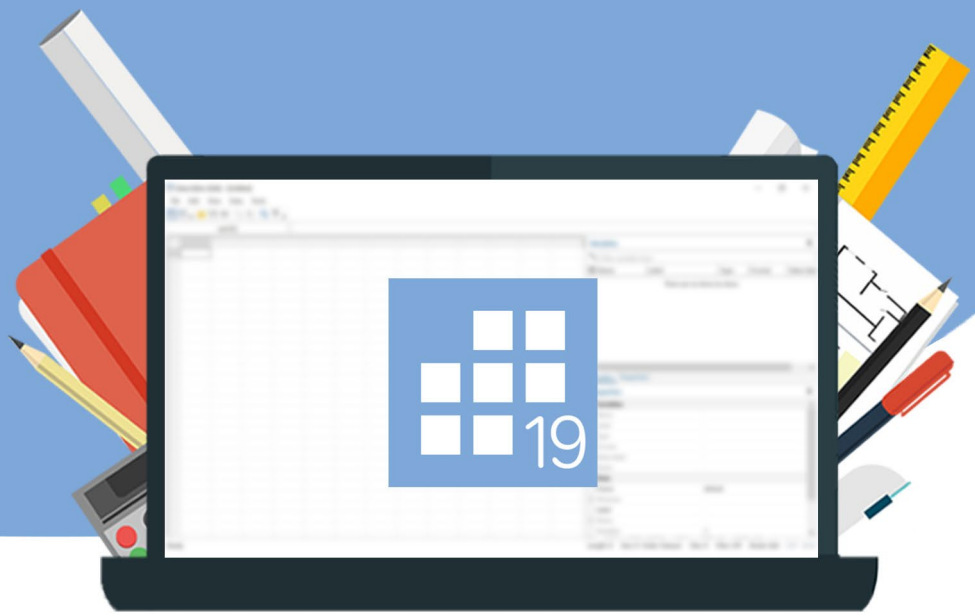

Step 15: Open Stata. Click on the Windows start button and type “Stata” in the search bar or check the recently installed apps. You will be asked to activate your license directly. This information should already be filled in. Click on “Next”.

Step 16: Stata 19.5 is now activated. You can get started!
