

Installation Manual

IBM SPSS Modeler

Interim Fix

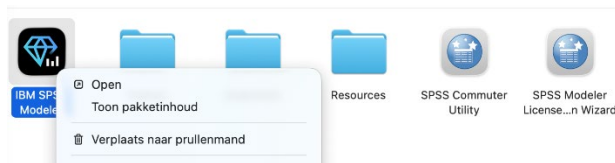

For Mac

Attention: This Interim Fix is also meant for older versions of SPSS Modeler. You can find the download links in this manual.

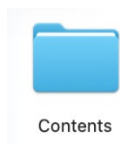

Step 1: Download the security patch. You can find the link here:

<https://surfdrive.surf.nl/s/32SPL7K3wLARQWb>

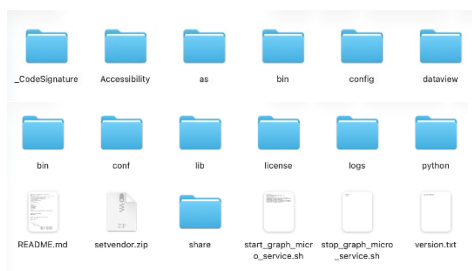

Step 2: Open Finder and go to the SPSS installation folder, this is usually Apps > IBM > SPSS > Modeler. Control + click on the file “IBM SPSS Modeler” and choose “Show Packages Content”.

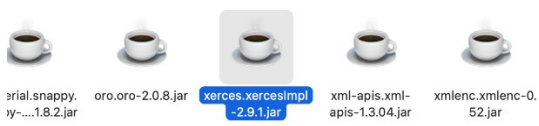

Step 3: Choose “Contents”.

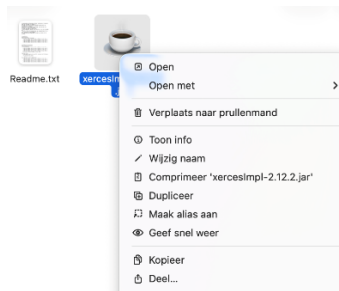

Step 4: Open the “dataview” folder and then the “lib” folder.

Step 5: Search for the xerces.xercesImpl-2.9.1.jar file by entering this in the search bar in the top right corner of your screen. Select the file and drag this to a folder **outside of the installation folder**, such as your desktop.

Step 6: Go to the security patch folder. Control + click on the xercesImpl-2.12.2.jar file and choose “Copy”.

Step 7: Go back to the “lib” folder from step 4. Control + click and choose “Paste”, or use Control + V. You can now get back to using Modeler.
