**Windows 11 Education (Multilanguage)**

Windows 11

- Prior versions of Windows 11 Education will also remain available for download until they reach end of service. Refer to the Windows lifecycle fact sheet located [here](#) for specific lifecycle servicing dates.
- Known issues are documented [here](#).
- To provide the best protection, we recommend our Windows 11 customers regularly update their devices each month by installing the latest monthly cumulative update to help protect against potential vulnerabilities and benefit from available quality improvements.

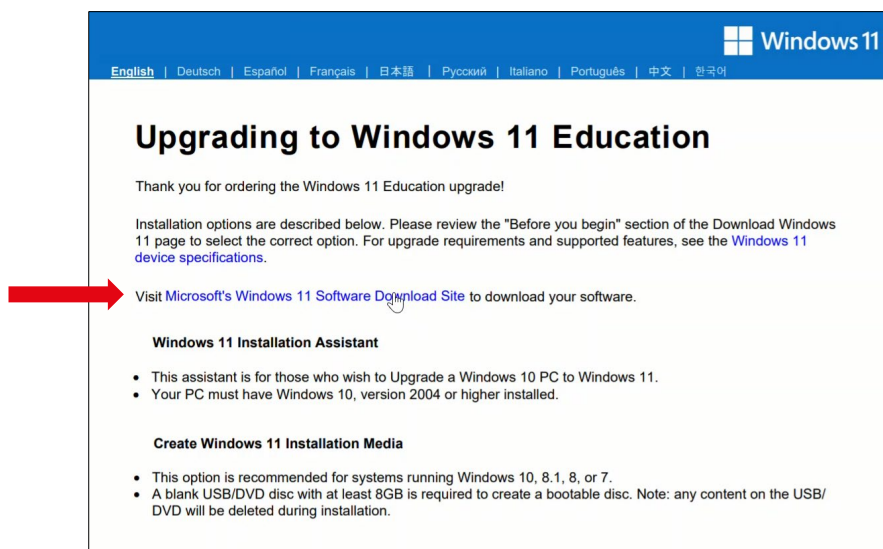

**29 Dagen Over!**  
Basistoegangsgarantie (1 maand) - Inbegrepen

**Downloaden**

Grootte: 1 kB

**Step 3:** Click on the 'Download' button. Please note that the basic one-month access guarantee applies to access the download, not to use of the software itself.

**Step 4:** You will now be redirected to a page where you can download the installation file. Click on 'Microsoft's Windows 11 Software Download Site' to download Windows 11.

**Upgrading to Windows 11 Education**

Thank you for ordering the Windows 11 Education upgrade!

Installation options are described below. Please review the "Before you begin" section of the Download Windows 11 page to select the correct option. For upgrade requirements and supported features, see the [Windows 11 device specifications](#).

Visit [Microsoft's Windows 11 Software Download Site](#) to download your software.

**Windows 11 Installation Assistant**

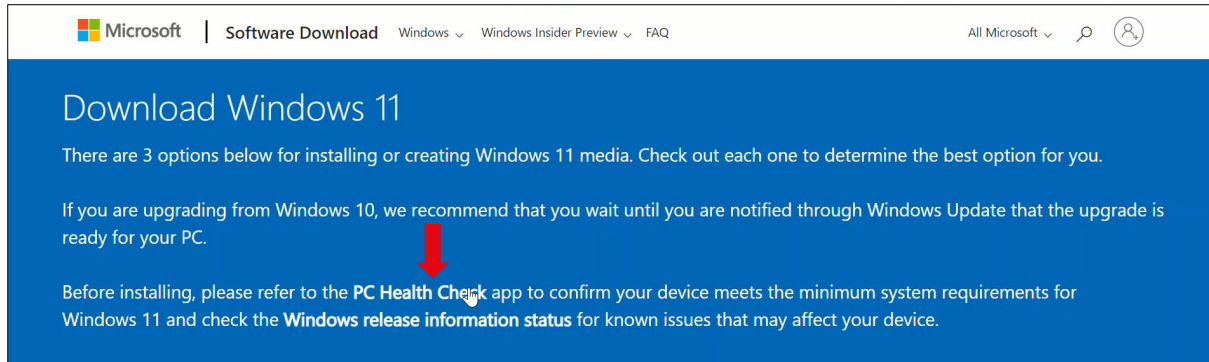

- This assistant is for those who wish to Upgrade a Windows 10 PC to Windows 11.
- Your PC must have Windows 10, version 2004 or higher installed.

**Create Windows 11 Installation Media**

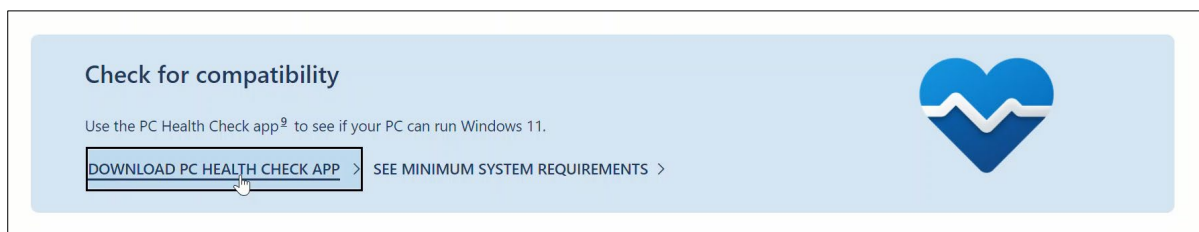

- This option is recommended for systems running Windows 10, 8.1, 8, or 7.
- A blank USB/DVD disc with at least 8GB is required to create a bootable disc. Note: any content on the USB/DVD will be deleted during installation.

**Step 5:** Next, you will be redirected to a page from Microsoft. This page states that you should check whether your current PC meets the requirements for Windows 11 before installation. You can do this by using the PC Health Check app, click on 'PC Health Check'. If you have already checked this, go to step 13.

**Step 6:** Click 'DOWNLOAD PC HEALTH CHECK APP' to start the installation.

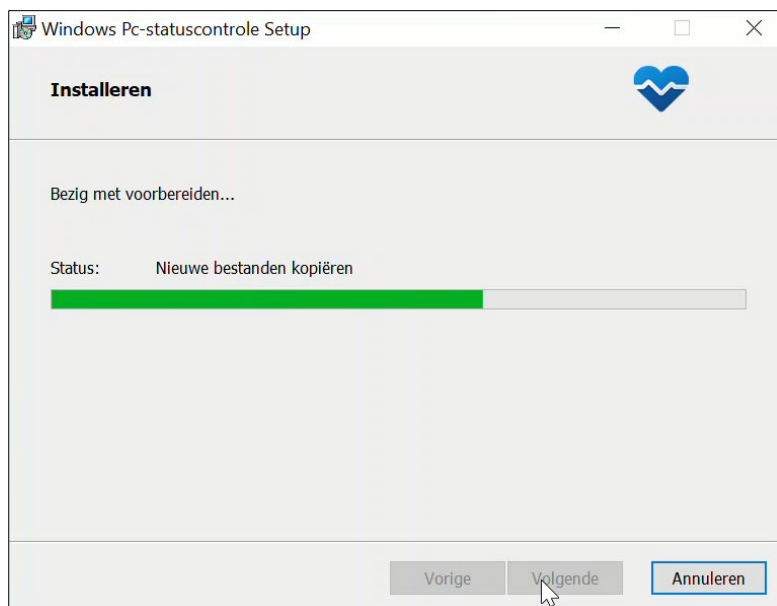

**Step 7:** The app will now be downloaded. When it is done, click on the file. If you cannot find it at the bottom of the screen, go to downloads and find the file there.

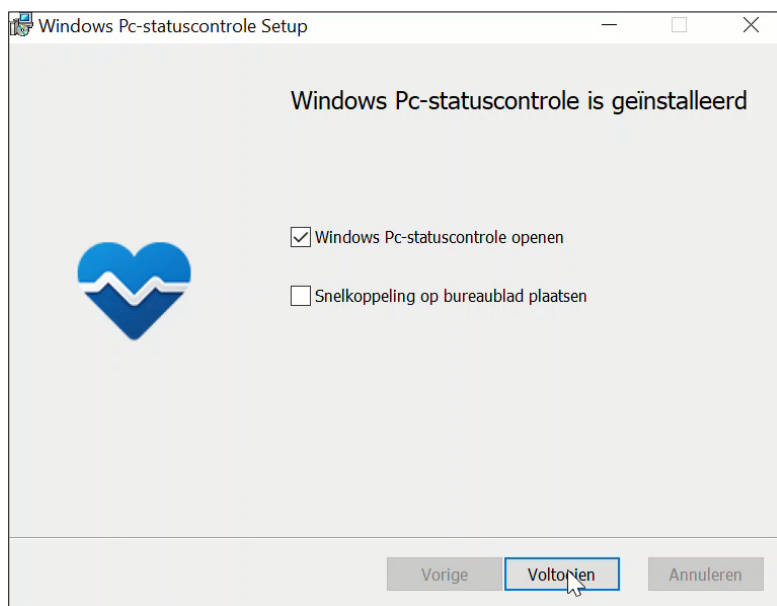

**Step 8:** Accept the terms and conditions and click 'Installeren (Install)'.

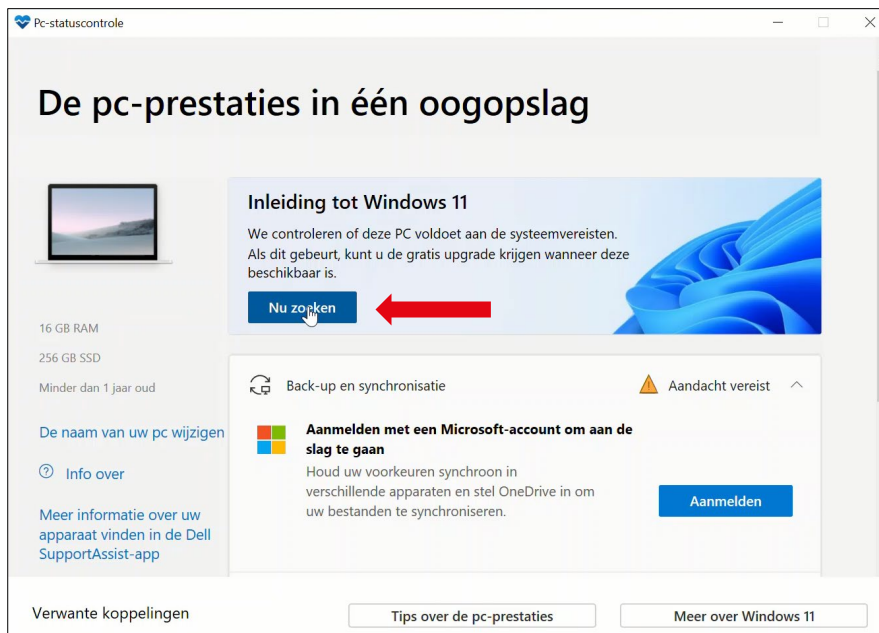

**Step 9:** Wait for the installation to complete.

**Step 10:** Click 'Voltooien (Finish)' to close the setup.

**Step 11:** The PC Health Check app will now open. Click on 'Nu zoeken (Search Now)'.

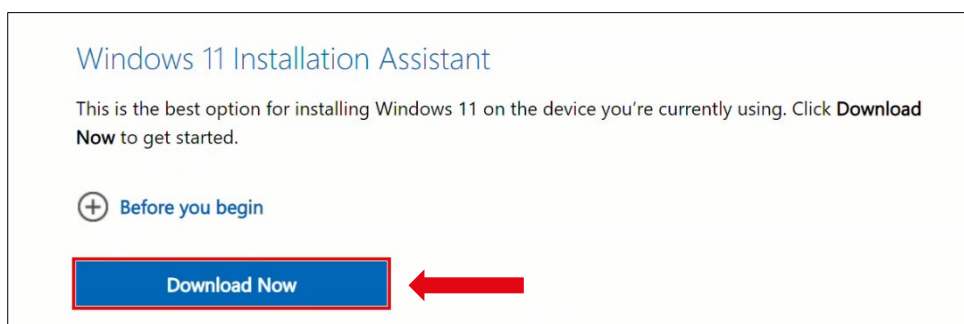

**Step 12:** After the check, you will see if your PC meets the requirements for Windows 11. If your device does not meet these requirements, you may not be able to install Windows 11 on your device. See [this page](#) for more information about system requirements.

If your device does meet the system requirements, then you can proceed with the installation of Windows 11.

**Step 13:** Open [Microsoft's page](#) again for the Windows 11 download (see step 4). Click on 'Download Now' to start the installation.

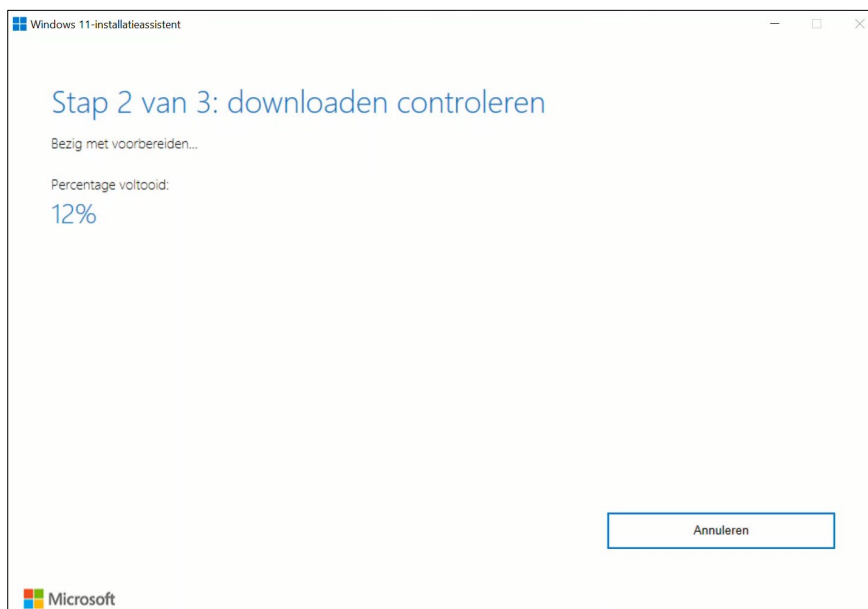

**Step 14:** The setup will now be downloaded. When this is finished, click on the file.

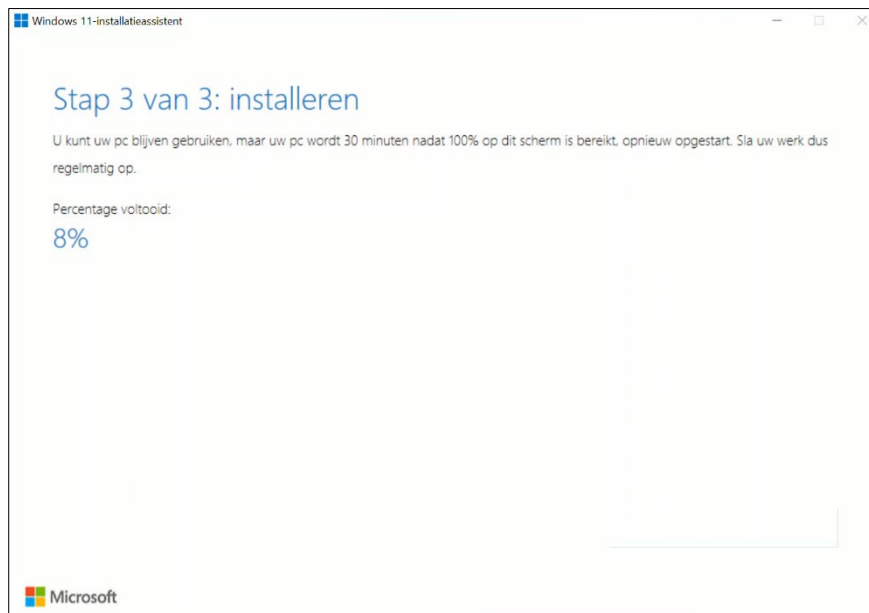

**Step 15:** Accept the terms and conditions to start the installation.

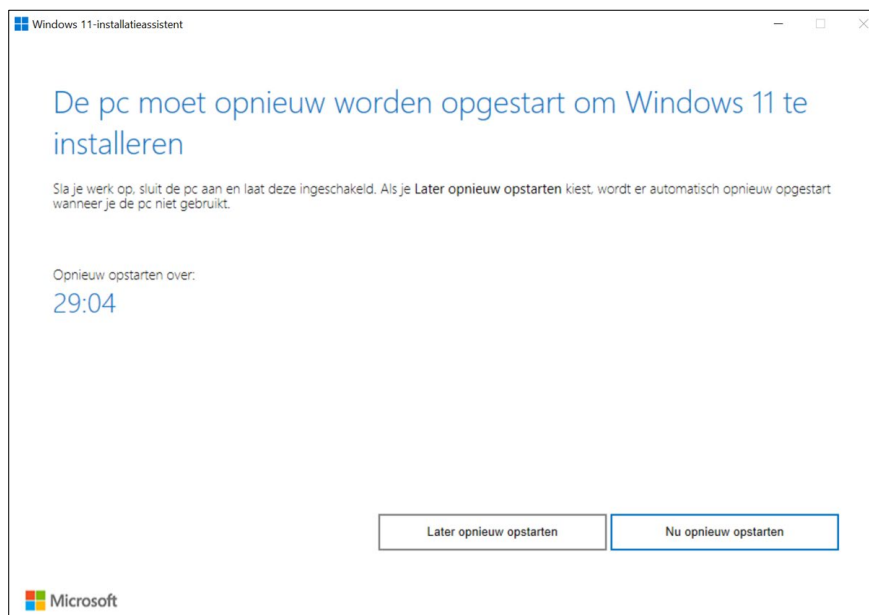

**Step 16:** The installation is now being prepared. Wait for the installation to complete, this can take some time.

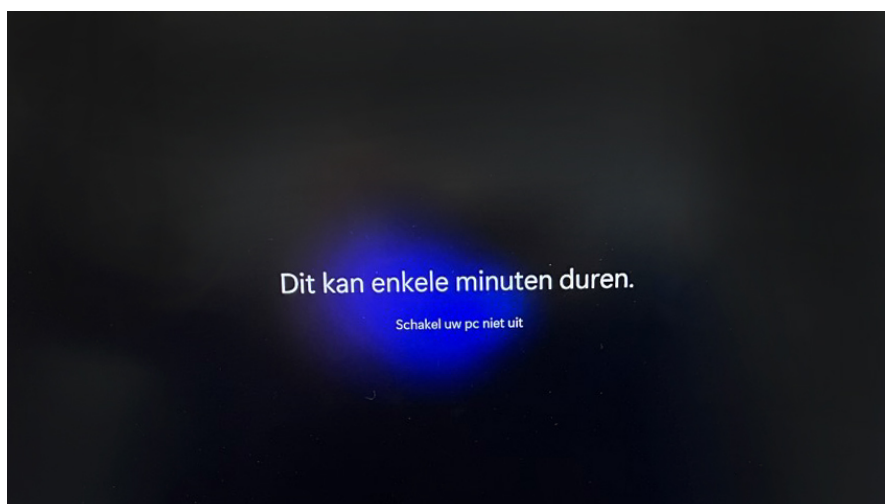

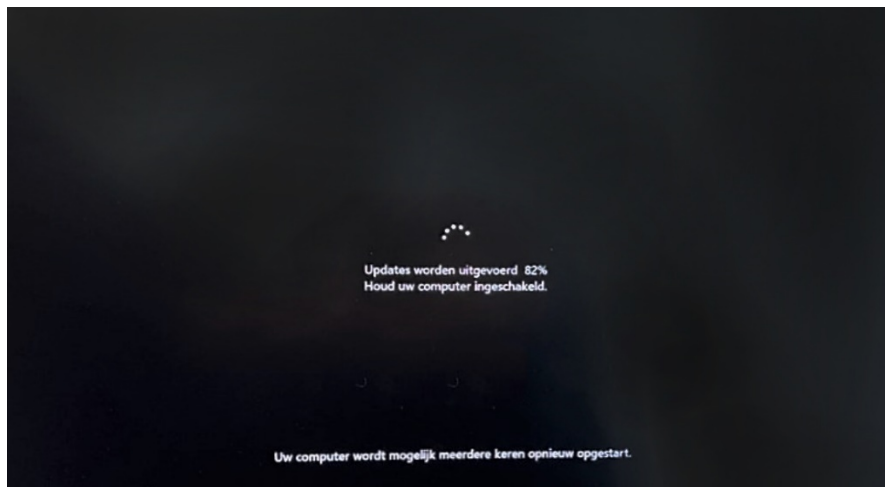

**Step 17:** After the installation, you need to restart your PC. Click on 'Nu opnieuw opstarten (Restart Now)'.

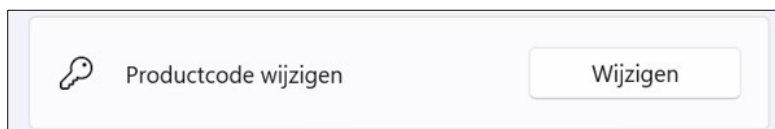

**Step 18:** The update will now start. Leave your PC turned on and wait for the installation to complete.

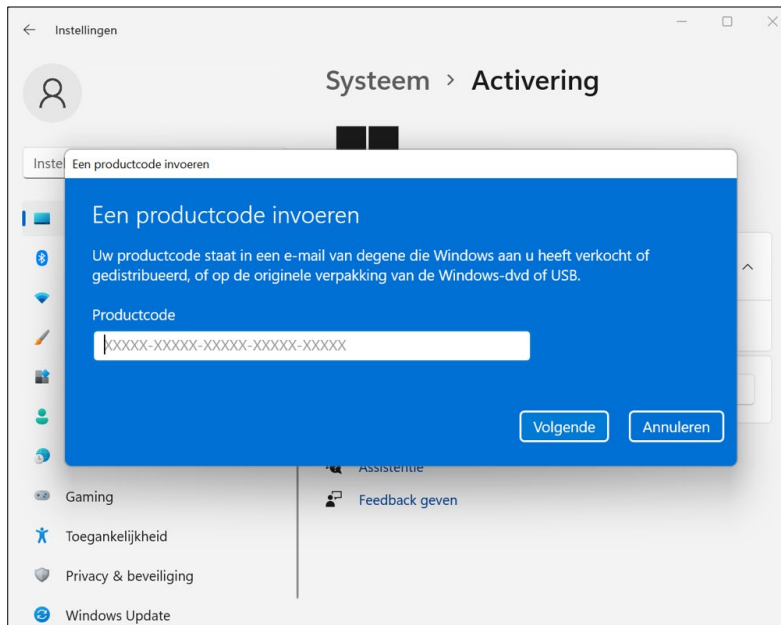

**Step 19:** The installation is now complete. You can activate the license by clicking the Start button and selecting Settings > System > Activation. Then click on 'Wijzigen (Change)' to enter the license key.

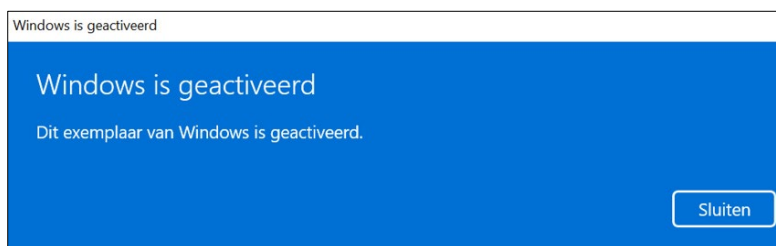

**Step 20:** You need a 25-character code to activate the license. You can find this code in your account under 'Orders'. Enter the code and click 'Volgende (Next)'.

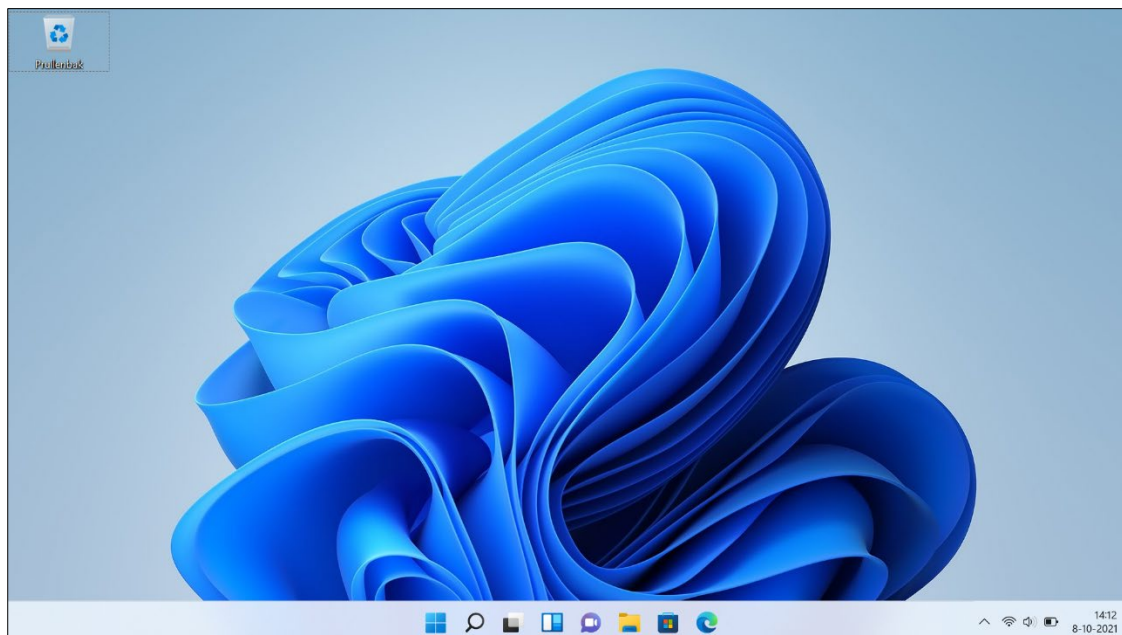

**Step 21:** Now you will see that your license is activated. Click on 'Sluiten (Close)'.

Under 'Activering (Activation)' you can also see that your license has been successfully activated.

**Step 22:** Windows 11 is now installed and activated. You can get back to work!
