Stap 7: Corel Pinnacle Studio 26 will now begin to install. This might take a while.

Step 8: You will now get a notification saying the installation has finished. Click "Launch Pinnacle Studio" if you want to use it right away. If not, then click "Finish".

Step 9: You will now get a screen asking if you would like to take part of the "User Experience Improvement Program". This means Corel will (anonymously) collect certain data, such as which features you use and how often you use them. Check the box if you wish to participate. Click "OK".
